

Co-ops, Covid-19 and interpreters in the 'new economy'

Signalise Co-op

Worksheet:

To help get the most out of the webinar, we have added some questions for you to answer below. This will help you consider how the current situation has been affecting you and what support you may need.

How has Covid impacted your work and interpreting practices?

Think about what is different now. There are positives as well as negatives, have you considered how this has changed your interpreting style, preparation, how you cowork etc.

What support did you need/would have liked?

Have you managed to access any support? Did you know where to go? etc.

What do you understand about the new trends in interpreting provision? How will this change your working practices?

We need to be prepared for the changing nature of our work. What can you do to support the deaf community and our profession?

What are cooperatives?

What are platform cooperatives?

Do you understand the difference between the gig economy and tech for good?

We hope you enjoyed the webinar and will consider supporting Signalise.

Thank you!
